

Top 149 towercos and infracos worldwide, by estimated tower count

Where possible, the tower counts that follow have been verified through site lists and direct conversation with management between Q3 2014 and Q2 2015. In some cases, counts represent our best estimate. We cannot provide even an estimate for some towercos and infracos, which are listed at the foot of this table. If you would like to suggest an amendment to any of these figures, please email kosmotherly@towerxchange.com.

Rank	Towerco	Count	Countries
1	China Tower Company*	120,000	China
